Anna Khinchuk

UX/UI Designer

anna.khinchuk@gmail.com | +49 151 23853704 | linkedin.com/in/anna-khinchuk-7b4118404 | Berlin, Germany

UX/UI design student (3rd semester, University of Europe for Applied Sciences) focused on accessible interfaces and design systems. Designed mobile apps, a banking dashboard and an e-commerce site in Figma, and built a design system that raised key text contrast from 2.73:1 to 5.88:1 (WCAG AA). Internship experience leading a project team and delivering 3D models and presentations. Comfortable with basic front-end code. Open to internship and working-student roles.

EXPERIENCE

Project Lead & 3D / Presentation Design Intern
IBS (IT company) — Moscow, Russia | June – July 2024

- Led a project team from concept to delivery, coordinating design and development milestones across the team.
- Acted as lead 3D designer, building the project's core 3D models and visual assets from technical specifications.
- Designed and delivered the final stakeholder presentation, translating technical work into a clear visual narrative.

EDUCATION

B.A. UX/UI Design — University of Europe for Applied Sciences
Germany | 2025 – Present (3rd semester)

SELECTED PROJECTS

PocketPower Design System — Audited four screens, found text contrast failures (2.73:1), then built tokens, components and states in Figma; button text contrast raised to 5.88:1.

PocketPower — Power Bank Rental App — Mobile app: onboarding, map with expandable bottom sheet, and a QR rental flow with price shown at every step.

Meridian — Banking Dashboard — Dark dashboard that turns balance, spending and savings data into clear, scannable cards.

Aura Wear — Fashion E-commerce — Editorial e-commerce website with minimal navigation, product cards and promotional sections.

Coffee Ordering App — Mobile app for browsing, customizing and paying for coffee orders ahead of pickup.

Social Survey App — Animated, card-based onboarding flow that personalizes the survey experience.

SKILLS

Design: Figma, Design Systems, Wireframing & Prototyping, Accessibility (WCAG), Framer, Miro, Photoshop, Illustrator

Additional: 3D Modeling, Game Design, Game Development

Programming (basic): HTML, JavaScript, Python, C++
